

Solar Industry Manufacturers Guide to Adhesive and Sealant Dispensing Systems

This guide displays the popular adhesive and sealant dispensing systems designed for manufacturers of products for the Solar Power Industry. Standard and custom dispensing systems are available for 1-part and 2-part materials.

Manufactured Products

- Solar Wafers
- Solar Cells
- Solar Panels
- Electronics
- Laminates
- Structures

Dispensing Applications

- Bonding
- Edge Sealing
- Potting
- Gasketing
- Encapsulating
- Coating

Adhesive and Sealant Dispensing Systems

Process Types: Robotic, Semi-Automatic, Manual

Metering Types: Continuous Flow, Shot Volume

1- and 2-Part: Epoxy, Silicone, Urethane, Acrylic

Metering Drives: Servo Motor, Air-Over-Oil, Air

Servo-Flo 801 Positive Rod Displacement Servo Drive Meter System for Robotic or Semi-Automatic Dispensing from 20 oz. Cartridges

See-Flo 202 Positive Rod Displacement Air-Oil Drive Meter System for Manual Dispensing from 5 and 10 gallon Tanks

Manufacturers of Precision Dispense Systems & Valves

E-mail: sales@SealantEquipment.com

45677 Helm Street • P.O. Box 701460

Plymouth, MI 48170 • USA

Phone: (734) 459-8600 Fax: (734) 459-8686

Adhesive and Sealant Dispensing Systems for Solar Industry Product Manufacturers

Servo-Flo 105 Adjustable Ratio Systems

1-Part Manual Dispense Systems

Bench Top, Meter Mix Dispense Systems

Continuous Flow, Servo and Pneumatic Systems

Manual Load-Unload Robotic Dispensing Systems

XYZ Dispensers for Small Components

Manufacturers of Precision Dispense Systems & Valves
